

Pocher Ferrari Testarosa Enhanced Decal Set

Thank you for purchasing the Enhanced Decal Set for the Pocher Ferrari Testarosa

You will notice there are a large number of decals and options included, with some decals requiring application to parts that are not included in the original Pocher kit (eg: warning labels for the spare wheel, tyre labels that appear in an "open" glove box along with various other labels). Although these can be left off the model should you choose to modify the kit pieces (ie: opening up the various locations), this will allow you to build a highly accurate replica. You will also note there are several version of the instrument cluster and centre console gauges / switches. These are listed as NIGHT / DAY versions, and replicate the appearance of the gauges in each condition. The instruments and gauges have been designed to align with the aftermarket interior transkit available from Scale Details, and notes on the application are included below. Also note that some decals are recommended to be left on the backing paper, and NOT be removed in the usual manner, as the backing paper will provide additional strength and make the application of these easier. Please also observe the options available with regards to the centre console panel, which may require some modification depending on the decal option you choose to use.

The decals can be applied in the usual manner of soaking in lukewarm water for a few seconds. Ensure that you use a fresh blade to cut as close to each decal image as possible to remove the carrier film prior to application. The use of a decal setting solution will also be beneficial in the case of smaller details. It is also highly recommended that you study reference pictures of your chosen prototype to ascertain the exact location of some of the various decals, specifically in relation to data plates. Where possible, a cross-reference has been provided on the chart below that gives and indication to the kit piece that the decal is to be applied to.

Decal No.	Item Description	Replaces Original Decal No.	Apply Decal To Original Kit Part	Location	Notes On Application
1	Fuel & Paint Label - Paint Label - Silver / Grigio		Fuel Label - A8	Fuel Filler / Front Hood	
2	Fuel & Paint Label - Paint Label - White / Blanco		Paint Label - X7	Fuel Filler / Front Hood	
3	Fuel & Paint Label - Paint Label - Red - Rosso Corsa		As Above	Fuel Filler / Front Hood	
4	Fuel & Paint Label - Paint Label - Yellow / Giallo		As Above	Fuel Filler / Front Hood	
5	Fuel & Paint Label - Paint Label - Black / Nero		As Above	Fuel Filler / Front Hood	
6	Koni Labels			Shock Absorbers	

7	Various Logos			Optional	
8	Seatbelt Harness Pads			Seatbelts	Apply to the seatbelt material AFTER the installation of any photo-etched hardware to avoid damage to the decal
9	Catalyst Label			Rear Engine Cover	
10	Tyre Label			Interior	
11	Warning Label	18	E5	Engine Bay	
12	VIN Plate			Drivers' Door Jamb	
13	Spare Wheel Label			Spare Wheel	
14	Headlight Label		X7	Front Hood	
15	Spare Wheel Label			Spare Wheel	
16	Coolant Label	21	K1 - Upper Frame	Engine Bay - Coolant Tank	
17	Ferrari Shields			Optional	
18	Ferrari Badges	20	X7 / R18	Front Badge / Key Fob	
19	Ferrari Badges		Z4	Steering Wheel	
20	Steering Wheel Logos	23	Z4	Steering Wheel	
21	Tyre Label - Original Equipment			Interior - Glove Box	
22	Oil Data Label			Engine Bay	
23	Assembly Number Label			Engine Bay	
24	Interior Light Switches		I12	Interior - Roof	As these decals are very small, extras have been provided, though only 2 are required. Apply to the moulded "circular" indents in the roof panel.
25	Steering Column VIN Plate	19	G6	Top Of Steering Column	

26	Steering Column Stalk Labels		G6	Steering Column Stalk - Upper Left Hand Stalk	Using reference pictures as a guide, it is recommended that you file a flat section along the end of the stalk to allow the flattest application of the decal. Before applying the decal, paint the stalk black as the filing will usually cause the plastic to whiten. Once the decal has been applied, seal the assembly with clear coat.
27	Steering Column Stalk Labels		G6	Steering Column Stalk - Right Hand Stalk	As Above
28	Steering Column Stalk Labels		G6	Steering Column Stalk - Lower Left Hand Stalk	As Above
29	Ferrari Owners Club Labels			Optional	
30	Instrument Cluster - NIGHT VERSION	29 / 26 / 31		Dashboard	Has been designed to be used with the photoetched pieces available from Scaledetails. For a more realistic effect, use a sheet of clear acetate between the etched metal fascia and the decal. DO NOT remove the decal from the backing paper, simply cut around the decal for application. Apply this in sequence - Etched piece - Clear Acetate - Cut Decal (use water based PVA adhesive to glue each layer together). This will allow time to align the image with the holes in the etched parts, and avoid frosting caused by superglue. Once this sub-assembly has had time to dry, trim any excess around the etched piece and fix in place in the kit dash.
31	Overhead Switches - Version 1	22	I12	Interior Roof	
32	Overhead Switches - Version 2	22	I12	Interior Roof	

33	Just To See If You Are Paying Attention				
34	Centre Console Switches - Separate			Centre Console	Remove individually and apply to the original kit piece. Use a sharp blade or suitable punch to make appropriate holes to use the original kits' knobs if desired.
35	Just Kidding, I Forgot To Number The Decals In Order				
36	Fuel Gauge - NIGHT VERSION	24	G2	Centre Console	Install same method as DECAL 30
37	Oil Gauge - NIGHT VERSION	25	G2	Centre Console	Install same method as DECAL 30
38	Odometer - NIGHT VERSION	30	G2	Centre Console	Install same method as DECAL 30
39	Centre Console Panel - NIGHT VERSION		G8	Centre Console	
40	Fuel Gauge - DAY VERSION	24	G2	Centre Console	Install same method as DECAL 30
41	Oil Gauge - DAY VERSION	25	G2	Centre Console	Install same method as DECAL 30
42	Odometer - DAY VERSION	30	G2	Centre Console	Install same method as DECAL 30
43	Centre Console Panel - DAY VERSION		G8		As Above
44	Instrument Cluster - DAY VERSION	29 / 26 / 31	or Aftermarket Etched	Dash Gauge Cluster	Install same method as DECAL 30
45	Pirelli Label	28	R17	Exterior Side	
46	Fuel Filler Cap		E8	Fuel Filler Cap	
47	Fuel Filter Label			Engine Bay	Ensure the fuel filters are painted SILVER / GREY and note the "direction of flow" arrows before application.
48	Glass Labels	32	S1 / S7 / S9 / S6 / S8	Windows	Apply to the INSIDE of the "glass" as the images are reversed
49	Oil Filter Label		A7	Oil Filter	Ensure the oil filter is painted WHITE / OFF WHITE prior to application
